K.A.R. 9-18-10. General requirements for housing facilities. (a) Construction. Each housing facility shall be designed and constructed as follows:

- (1) In a manner that is structurally sound; and
- (2) in a manner that protects animals from injury, contains the animals securely, and restricts other animals from entering.

(b) Housekeeping. Each licensee shall keep the premises where housing facilities and food storage are located, including buildings and surrounding grounds, clean and in good repair to protect the animals from injury, to facilitate the husbandry practices required by K.A.R. 9-18-14 and to reduce or eliminate breeding and living areas for rodents and other pests and vermin. The licensee shall keep the premises free of accumulations of trash, junk, waste products, and discarded matter. The licensee shall control weeds, grasses, and bushes so as to facilitate cleaning of the premises and pest control and to protect the health and well-being of the animals.

(c) Surfaces.

(1) The surfaces of each housing facility, including any houses, dens, fixtures, and objects in the housing facility that are similar to furniture, shall be constructed and maintained in a manner and made of materials that allow them to be readily cleaned and sanitized on a regular basis, or shall be removed or replaced when worn or soiled.

(2) All interior surfaces and any surfaces that come into contact with animals shall meet the following requirements:

- (A) Be free of rust; and
- (B) be free of jagged edges or sharp points that might injure the animals.
- (3) Each licensee shall maintain all surfaces on a regular basis, which shall include

regular cleaning and sanitizing. Surfaces shall be replaced when the surfaces are worn or permanently soiled and can no longer be effectively cleaned and sanitized.

(4) The floors and walls of each indoor housing facility, and any other surfaces in contact with the animals, shall be impervious to moisture. The ceilings of each indoor housing facility shall be impervious to moisture or shall be replaceable.

(d) Water and electric power. Each indoor housing facility or sheltered housing facility shall have electric power. Each outdoor housing facility shall have lighting and electric power that allows for animal husbandry as required under the act. Each housing facility shall have access to adequate potable water for animal and facility needs.

(e) Storage. Each licensee shall store supplies of food and bedding in a manner that protects the supplies from spoilage, contamination, and vermin infestation. Food requiring refrigeration shall be stored accordingly. Each licensee shall keep all open supplies of food and bedding in leakproof containers with tightly fitted lids. Only food and bedding currently being used may be kept in the animal areas. The licensee shall not store any substance that is toxic to the animals in food storage and preparation areas. However, toxic substances that are required for normal husbandry practices may be stored in the animal areas if stored in a manner that prevents harmful exposure to animals.

(f) Drainage and waste disposal.

(1) Each licensee shall provide for the regular and frequent collection, removal, and disposal of animal and food wastes and other debris in a manner that minimizes contamination and disease risks.

(2) If present, disposal facilities and drainage systems shall be properly constructed,

K.A.R. 9-18-11. Additional requirements for indoor housing facilities and sheltered

housing facilities. The requirements in this regulation shall be in addition to the requirements in K.A.R. 9-18-10.

(a) Structure. The building or structure of each indoor housing facility and each sheltered housing facility shall be constructed so that temperature and humidity levels can be controlled and odors can be eliminated rapidly. The building or structure shall have at least one door for entry and exit that can be opened and closed. Any windows or openings that provide natural light shall be covered with glass, hard plastic, or a similar hard, transparent material.

(b) Heating, cooling, and temperature. Each licensee operating an indoor housing facility or a sheltered housing facility shall ensure that the facility is sufficiently heated and cooled to protect and provide for the animals' health and well-being.

(1) Each licensee operating an indoor housing facility or a sheltered housing facility shall ensure that, when dogs or cats are present, the ambient temperature in the facility does not fall below 45°F or 7.2°C for more than four consecutive hours and does not exceed 85°F or 29.5°C for more than four consecutive hours.

(2) Each licensee shall provide dry bedding, solid resting boards, or other means of conserving body heat whenever the ambient temperature inside the facility is below 50°F or 10°C.

(3) Except as approved by the attending veterinarian, a licensee operating an indoor housing facility or a sheltered housing facility shall not permit the ambient temperature in the facility to fall below 50°F or 10°C when any of the following dogs or cats are present:

(A) Any dog or cat not acclimated to lower temperatures;

(B) any dog or cat of a breed that cannot tolerate lower temperatures without stress or discomfort, including short-haired breeds; or

(C) any dog or cat that is sick, infirm, or of a young or an advanced age so that the dog or cat cannot tolerate lower temperatures without stress or discomfort.

(c) Ventilation. When animals are present, each indoor housing facility or sheltered housing facility shall be sufficiently ventilated at all times to provide for the animals' health and well-being and to minimize odors, drafts, ammonia levels, and moisture condensation.

Ventilation shall be provided by windows, vents, fans, or air conditioning units. The licensee shall provide auxiliary ventilation whenever the ambient temperature is at least 85°F or 29.5°C.

Auxiliary ventilation may include fans, blowers, and air conditioning units. The licensee shall maintain the relative humidity at a level that ensures the health and well-being of the animals housed in the facility, in accordance with the directions of the attending veterinarian and generally accepted professional and husbandry practices.

(d) Lighting. Each licensee shall provide enough lighting in all animal areas of each indoor housing facility or sheltered housing facility to permit inspection and cleaning of the facility and observation of the animals. All animal areas shall be provided with a regular, uniform diurnal lighting cycle of either natural or artificial light when species-appropriate. Each primary enclosure shall be placed in a manner that protects the dogs and cats from excessive light. (Authorized by and implementing K.S.A. 47-1712; effective P-_____.)

(a) Restrictions.

(1) A licensee shall not keep any of the following categories of dogs or cats in outdoor housing facilities, unless that practice is specifically approved in writing by the attending veterinarian:

(A) Any dog or cat that is not acclimated to the temperatures prevalent in the area or whose acclimation status is unknown;

(B) any dog or cat of a breed that cannot tolerate the prevalent temperatures of the area without stress or discomfort, including short-haired breeds in cold climates; and

(C) any dog or cat that is sick, infirm, or of a young or an advanced age so that the dog or cat cannot tolerate the prevalent temperatures of the area without stress or discomfort.

(2) If a licensee operating an outdoor housing facility does not know whether a dog or cat is acclimated, the licensee shall not keep that dog or cat in the outdoor housing facility whenever the ambient temperature is less than 50°F or 10°C.

(b) Shelter from the elements. Each outdoor housing facility shall include one or more shelter structures accessible to each animal, large enough to allow each animal in the shelter to sit, stand, and lie in a normal manner and to turn about freely, and of appropriate size to allow each animal to conserve body heat. In addition to the shelter structures, each licensee shall provide one or more separate, outside areas of shade that are large enough to contain all the animals at one time and protect them from the direct rays of the sun. (b) Maintenance. Each primary enclosure shall be constructed and maintained so that the primary enclosure meets the following conditions:

(1) Provides all the animals with shelter and protection from extreme temperatures and weather conditions that could be uncomfortable or hazardous;

(2) provides sufficient shade to protect from direct sun all the animals housed in the primary enclosure simultaneously;

(3) has floors that are constructed in a manner that protects the animals' feet and legs from injury. If the floor is constructed of mesh or slats, the floor shall not allow the animals' feet to pass through any openings in the floor. If any metal strands are used to construct a suspended floor for the primary enclosure, the metal strands shall be nine-gauge wire or wire that is greater than 1/8 of an inch in diameter or shall be coated with plastic, fiberglass, or a comparable material. If any suspended floor is used in a primary enclosure, that floor shall be strong enough that the floor does not sag or bend between structural supports; and

(4) if stacked cages are used to house animals, provides an impervious barrier between the levels of stacked cages. The barrier may be removed as needed for cleaning.

(c) Additional requirements for cats. The requirements of this subsection shall be in addition to the requirements in subsection (a), (b), and (e).

K.A.R. 9-18-28. Pet animal foster homes. (a) Rescue networks and animal shelters may utilize pet animal foster homes. Rescue networks and animal shelters shall require each of their prospective pet animal foster homes to sign a pet animal foster home agreement with the supervising rescue network or animal shelter.

(1) Each pet animal foster home utilized by a rescue network or animal shelter shall receive an initial on-site inspection as well as an annual on-site inspection by the rescue network manager or animal shelter representative. During the on-site inspection, the rescue network manager or animal shelter licensee shall determine the pet animal foster home's compliance with applicable housekeeping, sanitation, and husbandry standards pursuant to training provided by the commissioner. The pet animal foster home agreement and documentation of on-site inspections shall be kept by the rescue network manager or animal shelter licensee and shall be made available to the commissioner or the commissioner's representatives upon request.

(2) Each rescue network manager and animal shelter licensee shall keep records of all pet animal foster homes utilized by the rescue networks and animal shelter. At the beginning of each license year, each rescue network and animal shelter that utilizes pet animal foster homes shall submit an application and license fee for each pet animal foster home being utilized. All license fees submitted at the beginning of a license year shall be submitted as a single payment. During the license year, each rescue network manager and animal shelter licensee shall submit an application and license fee for any pet animal foster home to be utilized for which an application with the license fee was not submitted at the beginning of each license year. (3) Each rescue network manager and each animal shelter licensee shall ensure that all pet animal foster homes utilized by the rescue network or animal shelter comply with the Kansas pet animal act and all applicable regulations.

(b) A pet animal foster home shall not foster dogs or cats for more than one animal shelter or rescue network at the same time.

(c) Each animal shelter licensee or rescue network manager using a pet animal foster home shall develop a plan of veterinary care to be followed by the pet animal foster home. The plan of veterinary care shall be recorded on the form specified in the definition of "adequate veterinary medical care" in K.S.A. 47-1701, and amendments thereto. This plan shall include the name of the licensed veterinarian whom the pet animal foster home shall contact in case of injury or illness and the name of the party responsible for the payment of treatment and office call charges. The pet animal foster home shall notify the sponsoring animal shelter or rescue network manager of any dog or cat receiving veterinary care within 24 hours of treatment. A copy of the plan of veterinary care shall be filed annually with the commissioner.

(d) A pet animal foster home shall not directly accept stray dogs or cats or any animal relinquished by its owner. Each pet animal foster home licensee wanting to accept stray dogs or cats or animals that are relinquished by their owners shall apply for and receive an animal shelter license before accepting these animals. Each rescue network manager shall be responsible for the intake of all animals in the care of the rescue network. (e) A pet animal foster home shall not foster more than 10 adult animals at the same time.

(f)(1) A pet animal foster home shall not at any time maintain or house on the premises more than 19 adult animals. The limit of 19 animals shall include the following:

(A) Any adult animal that is a personal pet of the pet animal foster home caretaker; and

(B) any adult animal owned by any other individual or entity and maintained, housed, or harbored on the premises.

(2) If more than 19 adult animals will be housed on the premises for any reason, the pet animal foster home licensee shall apply for an animal shelter license and shall not accept any adult animals in excess of that limit before receiving the animal shelter license.

(g) A pet animal foster home licensee shall not house any intact dog or cat six months of age or older unless spaying or neutering is contraindicated by a licensed veterinarian. If a veterinarian recommends that the dog or cat should not be altered, the pet animal foster home shall obtain a copy of a written opinion by the veterinarian as to why the animal cannot be altered and an estimated time of when, if ever, the animal can be altered. A copy of the written opinion shall be kept by both the pet animal foster home and the rescue network manager or animal shelter.

(h) The animal shelter licensee or rescue network manager shall process all documentation for each adoption and all spay and neuter deposits required by K.S.A. 47-1731, and amendments thereto. Each intact dog, cat, puppy, or kitten shall be adopted directly from the animal shelter or, in the case of a rescue network, from the premises of the rescue network manager. K.A.R. 9-18-6 – Fees. This section defines the different fee levels for each license category and other permits.

K.A.R. 9-18-7 – Records. This section states the requirements of maintaining records for each animal for retail breeders, hobby breeders, animal shelters, rescue networks, boarding & training kennels and pet shops.

K.A.R. 9-18-8 – Access to premises. This section defines the ability of the commissioner or the commissioners' representatives to enter the licensee's premises, examine records and inspect the facility. It also gives the Commissioner or his trained representatives the ability to take photographs of non-compliant items.

K.A.R. 9-18-9 – Inspections of premises. This section describes the policy of inspections of licensed and unlicensed facilities, the times when inspections will occur and the ability to conduct unannounced inspections.

K.A.R. 9-18-10 – General requirements for housing facilities. This section defines the standard housekeeping, husbandry, and other requirements with which retail breeders, hobby breeders, animal shelters, rescue networks, boarding & training kennels, research facilities and pet shops must comply.

K.A.R. 9-18-11 – Additional requirements for indoor housing facilities and sheltered housing facilities. This section defines the standard structural and other requirements for indoor and sheltered facilities for retail breeders, hobby breeders, animal shelters, rescue networks, boarding & training kennels, research facilities and pet shops.

K.A.R. 9-18-12 – Additional requirements for outdoor housing facilities. This section defines the standard structural and other requirements for outdoor housing facilities for retail breeders, hobby breeders, animal shelters, rescue networks, boarding & training kennels, research facilities and pet shops.

K.A.R. 9-18-13 – Primary enclosures. This section defines the requirements of a primary enclosure for retail breeders, hobby breeders, animal shelters, rescue networks, boarding & training kennels, research facilities and pet shops. It also defines additional requirements for cats.

K.A.R. 9-18-14 - Cleaning, sanitization, and pest control. This section defines the standard requirements for cleaning, sanitization, and pest control for retail breeders, hobby breeders, animal shelters, rescue networks, boarding & training kennels, research facilities and pet shops.

K.A.R. 9-18-15 – Compatible grouping. This section states the licensee shall not house animals in groups that are not compatible.

K.A.R. 9-18-16 – Separation of animals by gender. This section states all intact adult animals must be housed separately from other sexually intact adult animals of the opposite sex within an animal shelter, rescue network or pet animal foster home.

K.A.R. 9-18-17 – Feeding and Watering. This section defines adequate feeding and watering requirements for retail breeders, hobby breeders, animal shelters, rescue networks, boarding & training kennels, research facilities and pet shops.

K.A.R. 9-25-1 through 9-25-15. To be revoked.

II. Reason or Reasons The Proposed Regulations Are Required, Including Whether Or Not The Regulations Are Mandated By Federal Law.

The proposed new regulations are adopted by the Kansas Animal Health Commissioner to implement the Kansas Pet Animal Act. Within these proposed regulations are requirements such as adequate veterinary care, feeding, watering, cleaning, and general requirements for housing facilities for small animals defined under the Kansas Pet Animal Act (KPAA).

The proposed new regulations are intended to streamline and consolidate six different subsets of existing regulations, and create uniform requirements for all licensees subject to the KPAA. These regulations will implement a more easily understandable, customer-friendly set of requirements not only for the licensees, but also for the Kansas Department of Agriculture Animal Facility Inspectors.

These proposed regulations are not mandated by Federal Law.

III. Anticipated Economic Impact Upon The Kansas Department Of Agriculture.

The proposed regulations should not have a negative fiscal impact upon the Kansas Department of Agriculture.

K.A.R. 9-18-6 Fees. This regulation will bring in an estimated additional revenue of approximately \$4,800 annually to the KDA Animal Facility Inspection program within the Division of Animal Health.

The additional revenue of \$4,800 will be derived from the increase in fees for the existing Group Home Shelters and Rescue Home Shelters, which will be combined in the proposed regulations as Rescue Networks with an annual fee of \$125. This fee was increased to cover the additional staff time and expenses of inspecting these types of shelters.

IV. Anticipated Financial Impact Upon Other Governmental Agencies And Upon Private Business Or Individuals.

The current fees for licensure under the Kansas Pet Animal Act will not change, except for the addition of a new category (Rescue Network). This addition will combine two existing categories (Group Home Shelters & Rescue Home Shelters). This addition could pose a financial impact to these two existing categories.

These two existing categories currently pay \$50 annually for a license. These proposed regulations will increase the fees for these existing categories by \$75, with a new proposed fee of \$125.

V. Less Costly or Intrusive Methods That Were Considered, But Rejected, And the Reason For Rejection.

A number of proposed requirements were discussed in multiple meetings of the Kansas Pet Animal Advisory Board. The fees and other requirements in the proposed regulations are the result of these discussions.

VI. Environmental Impact

The proposed regulations are not expected to have an environmental impact.
